## ATTRIBUTES

Dependable business professional who believes that teamwork and cooperation usually achieve the best results. Takes direction well, follows rules and guidelines, content to sit quietly for long periods until needed. From youth, have worked and performed for several organizations involved in various visual and performing arts. Equally comfortable performing in front of an audience or working behind the scenes as part of the technical crew, sometimes doing both during the same performance. Flexible, adaptable, creative, and calm under pressure.
